Projects

Dovetail, *Interior Designing Website*

Languages, Framework & Libraries used : Angular 7 & 13, Javascript, HTML, CSS, Bootstrap 4.6

- Dovetail is the premiere interior design software that guides through creating interior specs for builders, vendors and clients.
- It helps create specifications that are required for the first time which will build the way up for every room of the house.
- Projects can be exported in PDF format, sorted by specific trades, showing just the details needed, or sort by room or even by vendor.

Befulfilled, *Product Management Application*

Languages, Framework & Libraries used : Angular 13, Javascript, HTML, CSS, Bootstrap 4.6

- Be Fulfilled is a full service operations company. The goal is to do the heavy lifting on the operations side so that the clients can focus their time and energy on Sales, Marketing and Product Development.
- The goal is to continually add value to the brand with first class products, website, shipping speed and customer service.

Sozo, *Digital Drawing Board*

Languages, Framework & Libraries used : Fabric, Javascript, HTML, CSS, Bootstrap 4.6

- SOZO is a dynamic, digital collaboration studio where freelancers, professionals, educators and students can virtually assemble.
- SOZO's digital drawing board let's teams create and design winning projects.
- With video built into your Drawing Board workspace, SOZO enables human interactions in any project.
- Visual and virtual collaboration succeed with real-time connections.

Moonlight Concept, *Online Shopping*

Developed using : Wordpress, HTML, CSS, Bootstrap

A shopping e-commerce website built using wordpress. Helped maintain and enhance a custom eCommerce platform built on woocommerce plugins. Integrated payment gateway using plugins.
